Discussion guide for appointment with pediatrician/family doctor

Visiting your child's pediatrician or a family doctor may feel daunting, but it may help to be prepared ahead of your appointment. Take a look at the below for a few suggestions on questions to ask the doctor.

Sample questions:

- How tall should my child be?
- Is my child shorter than other children in their age group?
- What could be causing my child's slow growth?
- Should my child's growth be measured/monitored regularly?
- Is my child displaying signs/symptoms of a growth disorder?
- Does my child need to see a specialist?
- What are the next steps?

Notes:
